Directions:

This document has been provided in Microsoft Word format for the convenience of the district. The order of the template shall not be rearranged. Each section offers specific directions, but does not limit the amount of space or information that can be added to fit the needs of the district. All submitted documents shall be titled and paginated. Where documentation or evidence is required, copies of the source document(s) (for example, rubrics, policies and procedures, observation instruments) shall be provided. Upon completion, the district shall email the template and required supporting documentation for submission to the address DistrictEvalSysEQ@fldoe.org.

****Modifications to an approved evaluation system may be made by the district at any time. A revised evaluation system shall be submitted for approval, in accordance with Rule 6A-5.030(3), F.A.C. The entire template shall be sent for the approval process.**

1. Performance of Students

Directions:

The district shall provide:

- For all school administrators, the percentage of the evaluation that is based on the performance of students criterion as outlined in s. 1012.34(3)(a)1., F.S., along with an explanation of the scoring method, including how it is calculated and combined [Rule 6A-5.030(2)(a)1., F.A.C.].
- For all school administrators, confirmation of including student performance data for at least three years, including the current year and the two years immediately preceding the current year, when available. If less than the three most recent years of data are available, those years for which data are available must be used. If more than three years of student performance data are used, specify the years that will be used [Rule 6A-5.030(2)(a)3., F.A.C.].
- For school administrators, the district-determined student performance measure(s) used for personnel evaluations [Rule 6A-5.030(2)(a)7., F.A.C.].

District Submission:

1) For all school administrators, the percentage of the evaluation that is based on the performance of students is 30% on school wide learning gains (VAM) and 10% gains by Level 1 and 2 students (VAM). The total percentage is 40%.

2/3) See below regarding the performance of students:

School-wide Value Added Measure (30%)

The school-wide value added measure component of the principal evaluation process comprises 30% of the principal's overall annual evaluation. This component is a measure of the school's effectiveness in producing the learning growth of *every enrolled student*. School-wide value added measure is calculated using all applicable pre- and post- measure combinations in the school.

Level 1 and 2 Students' Value Added Measure (10%)

This component signals the importance of improving the learning growth of our district's lowest performing students so that we may make progress closing the achievement gap. Our vision for this component is for principals to allocate resources, make staffing decisions, and otherwise exercise instructional leadership in such a manner that fosters improvement in the performance of struggling students. This component, then, consists of the value added measure of the school for Level 1 and 2 students in reading (grades 3-10) and math (grades 3-8). The component will be measured with the Level 1 and 2 students' results on the Florida Standards Assessment (FSA) Reading and Math tests.

The VAM calculation for administrators is based on three years of student data, including the current year and the two years immediately preceding the current year, when available.

Hillsborough County Public Schools along with the University of Wisconsin uses a proportional system comprised of course load and student load to determine the student growth measure. The state VAM calculation and the local VAM calculation will determine the student growth score. Hillsborough County will use residuals from the state provided VAM to differentiate the points within each classification score. The use of the residuals will in no way allow overlapping of scores between classification levels.

Residual: The portion of a student's score that can be contributed to the impact of teachers as calculated by the covariate regression analysis. (The residual is provided by the vendor that provides scores to districts through the state.)

Hillsborough County will accept the state VAM scores. If less than the three most recent years of data are available, those years for which data are available must be used.

This score will be a 1-4 score, indicated by U to HE. The chart below demonstrates how this score will be converted to points for the summative evaluation score:

VAM Category	Classification	Points Used in Final Summative Score Calculation
4	Highly Effective	40-34
3	Effective	33.99-17.5
2	Needs	17.49-15.00

	Improvement/Developing	
1	Unsatisfactory	14.99-0

2. Instructional Leadership

Directions

The district shall provide:

- For all school administrators, the percentage of the evaluation system that is based on the instructional leadership criterion as outlined in s. 1012.34(3)(a)3., F.S., along with an explanation of the scoring method, including how it is calculated and combined [Rule 6A-5.030(2)(c)1., F.A.C.].
- Description of the district evaluation framework for school administrators and the contemporary research basis in effective educational practices [Rule 6A-5.030(2)(c)2., F.A.C.].
- For all school administrators, a crosswalk from the district's evaluation framework to the Principal Leadership Standards [Rule 6A-5.030(2)(c)3., F.A.C.].
- Observation or other data collection instrument(s) that include indicators, organized by domains, based on each of the Principal Leadership Standards, and additional elements provided in s. 1012.34(3)(a)3., F.S. [Rule 6A-5.030(2)(c)4., F.A.C.].
- Procedures for observing and collecting data and other evidence of instructional leadership [Rule 6A-5.030(2)(c)5., F.A.C.].

District Submission:

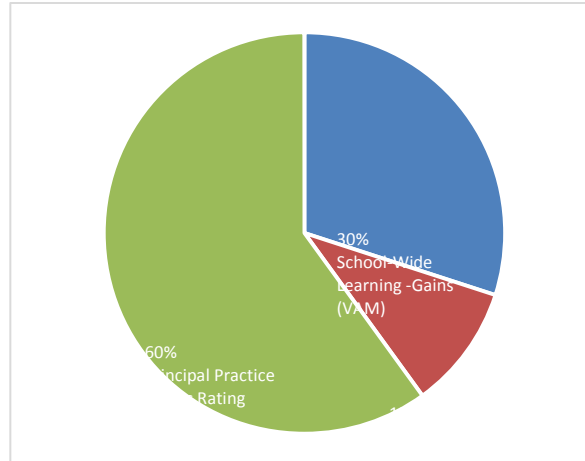

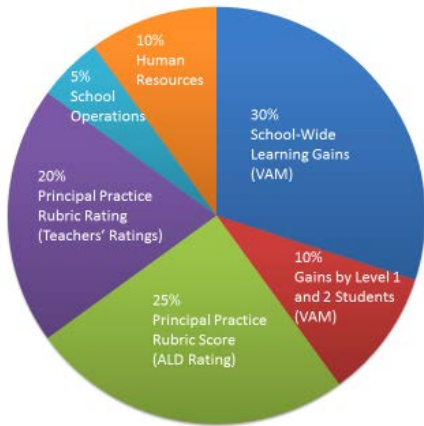

1)

Please note: At a March 1st Board Meeting the instructional leadership criterion will be 60% of the overall evaluation. Input and data will be incorporated through teacher feedback, human resources functions, and school operations. For principals, the Area Superintendent will complete the Principal Competency rubric and consider these other measures. For assistant principals, the principal will complete the Assistant Principal Competency rubric and consider these other measures. See updated information below:

Principal and AP Recommended Evaluation Changes for 2015-2016 and Beyond

As we have learned more about how to effectively observe, assess, and evaluate principals, we are recommending that our current approach be changed to a more holistic scoring approach that weighs more heavily on school leader practice tied to our competency rubrics. The pie charts below will demonstrate the recommended changes. The smaller measures seen in 2014-2015 will no longer be considered stand-alone measures. The data that we have used to capture the HR points, school operations points, and teacher input points, will still be captured and provided to the supervisor (Area Superintendents for principals and Principals for APs) to use as evidence as they rate related elements in our rigorous and comprehensive school leader competency rubric. The data will be part of a picture of a principal's practice and will be used to score the related elements in the rubric. For example, the HR points will be used to score the elements found in the Human Capital Management Domain of the rubric.

Principal Evaluation Measures as of 2014-2015

For the attached School Leader Competency Rubric, the following scoring is associated with each performance rating:

- Exemplary- 3 points
- Accomplished- 2 points
- Progressing- 1 point
- Requires Action- 0 points

- For competency 1 Achievement Focus and Results Orientation (Instructional Leadership) the maximum points are 12.
- For competency 2 Instructional Expertise (Instructional Leadership) the maximum points are 9.
- For competency 3 Managing and Developing People (Human Capital Management) the maximum points are 21.
- For competency 4 Culture and Relationship Building (Organizational/Systems Leadership) the maximum points are 21.
- For competency 5 Problem-Solving/Strategic Change Management (Organizational/Systems Leadership) the maximum points are 15.

The chart below explains the point breakdown to achieve the corresponding performance category for the instructional leadership criterion of the evaluation:

Highly Effective	65-78
Effective	45-64
Needs Improvement	25-44
Unsatisfactory	0-24

2) See description from the evaluation handbook regarding the research based vision for the evaluation:

Principal Evaluation System: Vision

“Research over the past 30 years clearly demonstrates that principals are important catalysts for shaping school improvements, creating lasting foundations for student learning and accelerating teacher effectiveness.” (NAESP and NASSP)

1220 - Evaluation of Administrative Personnel

Each administrator shall be evaluated annually by the administrator's immediate supervisor utilizing the approved evaluation system. The purpose of this performance evaluation shall be continuous quality improvement of the professional skills of each administrator as they relate to supporting effective instruction and student learning growth.

As set forth in State law, the performance evaluation of a school administrator must be based on data and indicators of student learning growth assessed annually by statewide assessments for the students assigned to that administrator's school or, for subjects and grade levels not measured by Statewide assessments, by School District assessments as provided in F.S. 1008.22(8). For administrators for whom at least three years of growth data for students assigned to the school, the percentage of the evaluation that is based upon student learning growth shall be reduced to not less than forty percent (40%) as provided by State law.

The evaluation criteria for each administrator's annual evaluation must include, but are not limited to, the following:

- A. student performance, as described above;
- B. instructional leadership that is based upon each of the leadership standards adopted by the State Board of Education, including:
 1. performance measures related to the effectiveness of classroom teachers in the school;
 2. the administrator's appropriate and effective use of evaluation criteria and procedures;
 3. recruitment and retention of effective and highly effective classroom teachers;
4. improvement in the percentage of instructional personnel evaluated at the highly effective and effective level; and
5. other leadership practices that result in student learning growth;
- C. professional and job responsibilities adopted by the State Board, as well as additional professional and job responsibilities established by the Board.

Lastly, each evaluation shall relate, but not be limited, to the duties specified in the job description.

The evaluation shall be completed and on file in accordance with the time schedule established by the Superintendent. The written report of the evaluation must be on file, as well as provided to the employee, within ten days of the evaluation conference; however, the evaluator may amend an evaluation based upon assessment data from the current year if the data becomes available within ninety (90) days after the close of the school year.

An evaluation shall be submitted at the time an administrator leaves the District if services terminate prior to annual evaluations.

Administrators may be required to take recognized examinations as the Superintendent or designee deems necessary to evaluate their health, competence, and/or performance. Refusal to take required examination(s) shall be grounds for immediate dismissal. The Board shall pay the cost of the examination(s).

An administrator shall be given a copy of any documents relating to his/her performance which are to be placed in the personnel file.

The Superintendent shall annually report the evaluation results of school administrators using the four levels of performance set forth in State law to the FLDOE. The Superintendent shall also notify the FLDOE of any school administrators who receive two consecutive unsatisfactory evaluations, as well as any school administrators who are given written notice by the District of intent to terminate or not renew their employment.

The administrator assessment system shall be evaluated annually to determine compliance with State law and this policy. All substantial revisions to an approved system shall be approved by the Board, upon the recommendation of the Superintendent, before being submitted to the Florida Department of Education for approval.

7. District Self-Monitoring

Directions:

The district shall provide a description of its process for annually monitoring its evaluation system. The district monitoring shall determine, at a minimum, the following:

- Evaluators' understanding of the proper use of evaluation criteria and procedures, including evaluator accuracy and inter-rater reliability; [Rule 6A-5.030(2)(j)1., F.A.C.]
- Evaluators provide necessary and timely feedback to employees being evaluated; [Rule 6A-5.030(2)(j)2., F.A.C.]
- Evaluators follow district policies and procedures in the implementation of evaluation system(s); [Rule 6A-5.030(2)(j)3., F.A.C.]
- Use of evaluation data to identify individual professional development; and [Rule 6A-5.030(2)(j)4., F.A.C.]
- Use of evaluation data to inform school and district improvement plans [Rule 6A-5.030(2)(j)5., F.A.C.]

.....

The district personnel and principals meet annually to review the Instructional Evaluation System to determine compliance with the Florida Statute. The team usually meets in the summer of each year to evaluate the effectiveness of the system. During the review, the team determines if:

- The evaluator understands of the proper use of evaluation criteria and procedures, including evaluator accuracy and inter-rater reliability.
- The evaluator provides necessary and timely feedback to the employees being evaluated.
- The use of evaluation data is used to identify individual professional development.
- The use of evaluation data is used to inform school and district improvement plan.

The team looks at the performance evaluation results from the prior school year for all personnel using the four levels of performance. The performance evaluation results for personnel are disaggregated by classroom teacher and all other instructional personnel; by school site; and by instructional level. School grades and state and local assessment data are also reviewed by school and district and compared to the performance evaluation data. Results of this data analysis are used by individual schools and the district to set school improvement goals and plan for individual, school and district professional development activities.

Changes and revisions to the teacher evaluation system will be recommended. All substantial revisions will be reviewed and approved by the district school board before being used to evaluate teachers.
