To determine the final scores and ranking, each Selection Committee member independently ranked the highest three interviewed firms based on the member's assessment of each firm's relative level of qualifications for the project. Firms received three points if they were the highest ranked firm by a Committee member, two points for each second place ranking, one point for each third place ranking. Fourth and Fifth place finishers received no points. An aggregate score equal to the sum of points received as a result of the rankings of all Committee members was used to determine the final ranking.
